

EXAMINABLE AREAS FOR DIAGNOSTIC RADIOGRAPHY

1. Patient Care
2. Clinical, Ethical and Legal Responsibilities
3. Conventional radiography
 - a. Musculoskeletal system
 - b. Foreign body localization
 - c. Soft tissue radiography
4. Radiation hazard and protection
5. Ward and theatre radiography
6. Image critique
 - a. Film assessment
 - b. Radiographic anatomy
 - c. Pattern recognition
7. Pharmacology
 - a. Contrast media
8. Specialized imaging modalities
 - a. Fluoroscopy
 - i. Urinary system
 - ii. Alimentary tract
 - iii. Biliary system
 - iv. Respiratory system
 - v. Reproductive system
 - b. Mammography

- c. Dental radiography

- d. Diagnostic ultrasound

- 9. Advanced imaging modalities

- a. Magnetic Resonance Imaging (MRI)

- b. Computed Tomography (CT)

- 10. Research skills
